Aug 2023

PROFILE

Currently, I am a student at Centennial College studying game programming, I'm seeking a position at your establishment. I have a dedicated personality with strong problem-solving skills and a passion for creating and learning. The discipline of programming has honed my abilities in team collaboration, rapid acquisition of new concepts, and developing a strong work ethic.

EXPERIENCE

Systems Programmer

Coelec, Cayambe, Ecuador | Jun 2022 – Jun 2024

- Developed the company website.
- Built a linking system between applications.
- Gained experience meeting deadlines and delivering on time.

Independent Developer (Unreal Engine 5)

November 2022 – January 2025

- Developed games using C++, OOP, Sockets (WinSock2), and Multithreading.
- Published projects on Google Play Store and Steam.
- Applied critical thinking and preplanning for efficient development.
